

M2M Telecoms – Customer Service Agreement

Optus IoT Channel Partner • Telstra Value Added Reseller

Parent Company: Security Communication Solutions International Pty Ltd (SCSI) – ABN 31 087 318 358

M2M Telecoms – Customer Service Agreement

Optus IoT Channel Partner • Telstra Value Added Reseller

Parent Company: Security Communication Solutions International Pty Ltd (SCSI)

Table of Contents

1. Parties

1.1 M2M Telecoms, a business unit of Security Communication Solutions International Pty Ltd (SCSI) located at [Registered Address], provides Machine-to-Machine (M2M) and Internet of Things (IoT) cellular connectivity and management services (Services).

1.2 The Customer identified in the Service Order accepts the terms of this Agreement for the provision and use of the Services.

2. Background

2.1 M2M Telecoms delivers the Services using wholesale access to one or more public mobile networks operated by third-party carriers, including Optus (as an authorised IoT Channel Partner) and Telstra (as a Value Added Reseller), together with M2M Telecoms' control centre and value-added capabilities.

2.2 The parties agree that the underlying carrier's network is a dependency and that coverage, speeds and features are subject to the carrier's network footprint, capacity and policies from time to time.

3. Definitions

3.1 "Agreement" means this Customer Service Agreement, the Service Orders, and any Schedules annexed to it.

3.2 "Control Centre" means the portal or platform through which the Customer manages SIMs, usage, diagnostics and reports.

3.3 "Device" means Customer hardware that uses the Services (for example gateways, modems, IoT endpoints).

3.4 "Fair Use Policies" means the policies published by Optus and Telstra (as updated from time to time) that govern reasonable network use.

3.5 "Service Order" means a document (or online order) describing the Service plan(s), quantities, term, pricing and any options selected by the Customer.

3.6 "SIM" means a subscriber identity module in any form factor (including embedded MFF2) issued by M2M Telecoms for use with the Services.

4. Service Description & Provisioning

4.1 The Services provide packet data connectivity for approved Devices using 4G/LTE and, where available, 5G, NB-IoT and LTE-M technologies. Legacy 3G access is not supported (decommissioned in Australia).

4.2 M2M Telecoms will provision an administrator account for the Customer's nominated personnel to access the Control Centre. The Customer is responsible for managing end-user access and providing tier-0 support for Control Centre usage.

4.3 The Customer must use compatible Devices and apply recommended configuration guidelines. M2M Telecoms may reject Devices that could harm the network or degrade service.

5. Orders, Term & Changes

5.1 The initial term for each Service Order is as stated in that Service Order (Committed Term). Unless otherwise stated, the Service renews month-to-month thereafter.

5.2 Service moves, adds, changes and disconnects must be requested by authorised Customer administrators via the Control Centre or ticketing channel nominated by M2M Telecoms.

6. Charges & Billing

6.1 The Customer will pay the once-off establishment charges, monthly access fees, excess usage charges, and any other charges specified in the Service Order or as notified in accordance with this Agreement. Additional fees may apply to fault attendance where the fault is caused by Customer equipment or activities.

6.2 Invoices are issued monthly in arrears. A summary invoice is provided and detailed usage is available through the Control Centre within 14 days of the end of the billing period. The Customer must pay each invoice by the due date stated on the invoice.

6.3 Unless stated otherwise, amounts are exclusive of taxes. Interest may be charged on overdue amounts at the rate permitted by law. M2M Telecoms may suspend Services for non-payment after giving prior notice.

7. Usage, Fair Use & Roaming

7.1 Data usage is calculated as the sum of uploads and downloads. Unused monthly inclusions do not roll over unless specified in the Service Order.

7.2 The Customer must comply with the Optus and Telstra Fair Use Policies applicable to the underlying network and plan. M2M Telecoms may suspend, shape or cancel Services where use is unreasonable, fraudulent, causes network congestion or breaches law or policy.

7.3 International data roaming is disabled by default and, if enabled on request, is billed at the prevailing published rates per zone. Roaming availability and pricing are subject to change by the underlying carriers.

8. SIMs, Numbering & Porting

8.1 SIMs remain the property of M2M Telecoms. The Customer must protect SIMs from unauthorised use and notify M2M Telecoms immediately if a SIM is lost or compromised.

8.2 IoT data Services do not provide an MSISDN for public voice/SMS usage and mobile number porting is not available for these Services.

9. Service Levels & Support

9.1 Target response and restoration times are as set out in Schedule B. M2M Telecoms will use reasonable endeavours to meet targets but they are not guarantees.

9.2 Planned maintenance that may materially affect the Services will be notified in advance where practicable.

10. Compliance & Legal

10.1 Telecommunications Act: M2M Telecoms will comply with the Telecommunications Act 1997 (Cth) and applicable industry codes and standards, including the Telecommunications Consumer Protections (TCP) Code C628:2019 to the extent applicable to enterprise services.

10.2 TIO: M2M Telecoms maintains membership with the Telecommunications Industry Ombudsman (TIO). If the Customer is dissatisfied with complaint handling, the Customer may escalate to the TIO after providing M2M Telecoms a reasonable opportunity to resolve the matter.

10.3 Lawful Access & Data Retention: The Customer acknowledges Services may be subject to lawful interception and data retention obligations under applicable law, and M2M Telecoms will comply with all such requirements.

10.4 Privacy: M2M Telecoms will handle Personal Information in accordance with the Privacy Act 1988 (Cth) and the Australian Privacy Principles. A summary of data handling is provided in Schedule D. The Customer must ensure it has all necessary notices and consents to disclose Personal Information to M2M Telecoms for the provision of the Services.

11. Suspension, Cancellation & Early Termination

11.1 M2M Telecoms may suspend or limit Services for material breach, suspected fraud or security risk, or non-payment, upon notice where reasonable.

11.2 Early termination by the Customer during the Committed Term will attract an early termination charge calculated as: Base Monthly Amount per Service × number of months (or part thereof) remaining in the Committed Term. Individual service deactivations within a pooled plan may be permitted without early termination charges provided the minimum monthly commitment is maintained.

12. Liability & Indemnities

12.1 To the maximum extent permitted by law, each party excludes liability for loss of profit, revenue, or indirect/consequential loss. Nothing in this Agreement limits liability for personal injury, death, fraud, wilful misconduct, or liabilities that cannot be excluded under the Australian Consumer Law.

12.2 The Customer indemnifies M2M Telecoms against third-party claims arising from the Customer's unlawful use of the Services, Device faults, or breach of this Agreement.

13. Intellectual Property & Confidentiality

13.1 All Intellectual Property in the Control Centre, SIM profiles and related materials remains with M2M Telecoms or its licensors. The Customer receives a non-exclusive, non-transferable licence to use the Control Centre for the term of this Agreement.

13.2 Each party must keep the other's Confidential Information confidential, subject to disclosures required by law or to professional advisers who are bound by confidentiality.

13.3 Privacy: M2M Telecoms will handle Personal Information in accordance with the Privacy Act 1988 (Cth) and the Australian Privacy Principles. A summary of data handling is provided in Schedule D. The Customer must ensure it has all necessary notices and consents to disclose Personal Information to M2M Telecoms for the provision of the Services.

14. Suspension, Cancellation & Early Termination

14.1 M2M Telecoms may suspend or limit Services for material breach, suspected fraud or security risk, or non-payment, upon notice where reasonable.

14.2 Early termination by the Customer during the Committed Term will attract an early termination charge calculated as: Base Monthly Amount per Service × number of months (or part thereof) remaining in the Committed Term. Individual service deactivations within a pooled plan may be permitted without early termination charges provided the minimum monthly commitment is maintained.

15. Liability & Indemnities

15.1 To the maximum extent permitted by law, each party excludes liability for loss of profit, revenue, or indirect/consequential loss. Nothing in this Agreement limits liability for personal injury, death, fraud, wilful misconduct, or liabilities that cannot be excluded under the Australian Consumer Law.

15.2 The Customer indemnifies M2M Telecoms against third-party claims arising from the Customer's unlawful use of the Services, Device faults, or breach of this Agreement.

16. Intellectual Property & Confidentiality

16.1 All Intellectual Property in the Control Centre, SIM profiles and related materials remains with M2M Telecoms or its licensors. The Customer receives a non-exclusive, non-transferable licence to use the Control Centre for the term of this Agreement.

16.2 Each party must keep the other's Confidential Information confidential, subject to disclosures required by law or to professional advisers who are bound by confidentiality.

17. General

17.1 Assignment: The Customer must not assign this Agreement without M2M Telecoms' consent (not to be unreasonably withheld). M2M Telecoms may novate or assign to a related body corporate or in connection with a restructure.

17.2 Notices: Formal notices must be sent to the addresses in the Service Order or updated via written notice.

17.3 Governing Law: This Agreement is governed by the laws of the State of Victoria and the Commonwealth of Australia. Each party submits to the non-exclusive jurisdiction of those courts.

17.4 Entire Agreement: This Agreement supersedes all prior proposals and representations about the subject matter and may be varied by written agreement or by M2M Telecoms giving 30 days' notice of changes to policies or Service descriptions that do not materially adversely affect the Customer.

Schedule A – Pricing & Plan Details

[Insert plan table / rate card, including pools, inclusions, excess data rates, and any device pricing.]

Schedule B – Service Level Targets

• Support hours: 8:30am–5:00pm AEST (Melbourne), Monday–Friday (excluding Victorian public holidays). • Target response times: P1 [4 hours], P2 [8 hours], P3 [next business day]. • Target restoration times depend on carrier fault classification and access technology. • Escalation path: Service Desk ☐ Duty Manager ☐ Operations Manager.

Schedule C – Acceptable Use & Fair Use

The Customer must not use the Services to: (a) infringe law or third-party rights; (b) send spam or malicious traffic; (c) operate open proxies or cause network congestion; (d) connect unauthorised Devices; or (e) bypass usage controls. M2M Telecoms may apply traffic shaping, service suspension, or plan migration to enforce Fair Use Policies as updated by Optus and Telstra

Schedule D – Privacy & Data Handling Summary

- Types of data: subscriber identity (SIM ICCID, IMSI), device identifiers (IMEI), usage records (time, cell, volume), diagnostics and contact details.
- Purpose: provisioning, billing, support, security, analytics and compliance.
- Storage & location: hosted in Australian data centres or reputable cloud regions as notified; backups retained per policy.
- Access & disclosure: limited to need-to-know staff, carriers and service providers; may be disclosed under lawful authority.
- Security: aligned to ISO 27001 controls; MFA for Control Centre access; role-based permissions.
- Rights: Customers may request access/correction; data breaches will be handled under the Notifiable Data Breaches scheme.

Schedule E – Definitions

Additional or expanded definitions may be inserted here as required by a specific deployment.

Execution

Schedule F – Carrier-Specific IoT/M2M SIM Service Terms

- Scope: Services are SIM-based packet data for IoT/M2M Devices on Australian mobile networks. Public voice calling and peer-to-peer SMS are not supplied. Limited machine-originated/terminated SMS functions may be available only if expressly included in the relevant Service Order.
- Bearers: Access may include LTE, LTE-M and/or NB-IoT (where available). Availability, coverage, features (including PSM/eDRX) and performance vary by carrier and location.
- Device compliance: Devices must be compatible with the selected bearer(s), hold required approvals (e.g., RCM) and comply with carrier acceptance requirements. M2M Telecoms may reject non-compliant Devices.
- Addressing & reachability: By default, Services use carrier-grade NAT. Inbound connections to Devices are not available unless enabled via approved methods (e.g., VPN, private APN or M2M-managed networking). Public static addressing is not provided unless expressly stated in the Service Order.
- Emergency services: IoT data Services do not support emergency calling.
- Fair Use: The Customer must comply with the applicable Optus and Telstra Fair Use Policies for IoT/M2M services. M2M Telecoms may shape, suspend or migrate Services to enforce Fair Use and protect network integrity.
- Network changes: Carriers may alter network technologies, band plans, or features. M2M Telecoms will provide reasonable notice of material changes where practicable.
